Name Of Photo : 憐。惜

Description :

I think that this photo really touch my heart, since a little girl also the importance of planting trees, for the future life, and want to give out her help to the world. However, look back to ourselves, we just care ourselves, for our gracious life and to feel free for cutting down the trees, let our future generation receive lots of effects that bring along by the polluting of the environment. The source of trouble make my us need the future

generations to shoulder. Is it the time for us to reflect how to let the youngers having a better life?

我覺得這張相片好觸動我的心靈，一個小小年紀的小女孩都懂得植樹，為了未來生活，為了大眾的世界出一分力，但我們上一代只顧自己，為了自己奢華的生活而不惜砍伐樹木，令下一代受到環境的污染。上一代種下的禍根，要由下一代來承擔。我們是否需要好好反省一下，怎樣讓下一代過得好些呢？
